game on aris has come out of cryosleep she begins her rehabilitation irl and also begins playing age of gods while she is leveling up to leave the village of beginnings adam and his party enter the ruins of a magic academy destroyed in ages past their goal is to find a hidden class for fayte but climbing floor by floor through the ruins of the magic academy is a far more arduous task than any of them could have realized the closer they get to the top the stronger their enemies become and what they find after reaching the end may not be a hidden class at all will their descent into danger pan out or will whatever rewards they reap prove useless in the end explicit content warning this series contains content that may not be suitable for anyone under the age of 18

game on it s finally happened the one month grace period has expired and levon has declared a guild war on fayte s guild can destiny s overture defeat the pleonexia alliance can a guild of just seven win against a guild of several hundred thousand adam has a few tricks up his sleeve and they might be enough to guarantee victory yet the guild war against the pleonexia alliance is not the only problem they are facing kidnappings midnight assaults and a dwelling of mystical creatures living deep beneath the suncrest mountain await adam and his companions

virus caused asthma we now call a phenotype of asthma regardless of the significance and popularity of this disease the etiology of the virus induced asthma have not well understood in addition a few effective vaccines have been applied to prevent respiratory virus infection to solve the issues it is essential to clarify and

delineate both aspects of the virus and host defense systems including acute chronic inflammation and airway tissue remodeling to deeply review and discuss pathophysiology and epidemiology of virus induced asthma this topics includes new findings of the host immunity pathology epidemiology and virology of asthma chronic obstructive pulmonary disease copd we believe that these works are well summarized and informative to glimpse the field of virus associated asthma and copd and may help understanding the basic and clinical aspects of the diseases

the covid 19 pandemic has had a significant impact on the epidemiology and etiology of respiratory tract and gastrointestinal infections the implementation of control measures such as social distancing and hand hygiene was associated with a decrease in the incidence of some respiratory and gastrointestinal infections caused by other viruses and bacteria epidemiological data suggest that the incidence of respiratory tract infections other than sars cov 2 infection has decreased during the covid 19 pandemic possibly due to the adoption of several non pharmaceutical interventions in public areas currently there is very little research on the interaction between sars cov 2 and other infectious pathogens in terms of microbiome and virome as a matter of fact changes in the epidemiology of respiratory and gastrointestinal infections may be due to other causes than sars cov 2 specific control measures it is still unclear whether these changes might result from direct interaction between sars cov 2 and the microbiome and or virome continuous and ongoing efforts to understand the impact of the covid 19 pandemic on infectious diseases are critical in advancing scientific discovery for prevention and treatment strategies for future pandemics through this research theme we aim to explore scientific gaps related to our understanding of the changes in epidemiology and pathogenic agents responsible for respiratory tract and gastrointestinal infections during the covid 19 pandemic
